ABOUT ME

Detail-oriented and performance-driven web developer with a passion for crafting clean, responsive, and user-focused websites and applications. Proficient in modern web technologies including HTML, CSS, JavaScript, and frameworks like React and Next.js. Skilled in turning complex problems into intuitive, elegant solutions while collaborating cross-functionally with designers and backend teams. Continuously learning and adapting to deliver seamless, high-performance digital experiences.

WORK EXPERIENCE

NEWLIFE FOUNTAIN

Web Developer-Church Website | 2022 – Present

Technologies: HTML, CSS, JavaScript, Elementor

- Designed and developed a user-friendly website for a local church to improve outreach and communication with members.
- Included key features like event scheduling, sermon archives, prayer request forms, and online giving integration.
- Ensured the website was responsive, accessible, and optimized for both desktop and mobile use.
- Helped increase Sunday service attendance by 30% through improved visibility and online engagement.

DESIGNER PORTFOLIO WEBSITE

Web Development | 2025

Technologies: HTML, CSS, JavaScript, Figma, GSAP, Next.js

- Created a visually engaging and fully responsive portfolio to showcase my UI/UX and graphic design work.
- Implemented interactive animations using GSAP to enhance user experience without compromising performance.
- Optimized for SEO and fast loading, resulting in increased visibility and user retention.
- Included case studies with process walkthroughs to highlight design thinking, prototyping, and user testing.

PURE UXELS CREATIVE & MEDIA AGENCY

Web Developer | 2024 – 2025

Technologies: React.js, Tailwind CSS, Framer Motion, Contentful CMS

- Developed a sleek, animated website for a Nairobi-based creative agency showcasing video production, branding, and digital campaigns.
- Collaborated with the agency's design team to translate high-fidelity mockups into responsive, pixel-perfect UI.
- Integrated Contentful as a headless CMS, allowing the client to update content independently without touching code.
- Used Framer Motion to bring sections to life with scroll-based and hover animations, creating an engaging browsing experience.

ECOMMERCE WEBSITE

Web Development | 2023

Technologies: Next.js, React, Tailwind CSS, Stripe API

- Designed and developed a responsive eCommerce website for a local pet store, allowing customers to browse products, add items to cart, and securely checkout.
- Implemented dynamic product pages, search and filtering features, and a real-time cart system.
- Integrated Stripe for secure payment processing and Firebase for user authentication and order management.

TESTIMONIALS

“Osciah brings a rare blend of creativity and technical skill. He redesigned our agency website with such finesse that our client inquiries nearly doubled. He just gets the vision—then builds it beautifully.”

– Elsie N, Creative Director at Pure UXels

“Osciah is not just a developer—he’s a creative partner. His portfolio site inspired our own redesign. Clear communication, timely delivery, and stunning results.”

– Stella N Product Manager OCN

“Osciah’s design thinking is impressive. From wireframes to the final product, he was thoughtful, responsive, and deeply committed to the user experience. Our pet store site wouldn’t be the same without him.”

– Founder, Alpha Kennels.

“Working with Osciah on our church website was seamless. He translated our needs into a clean, modern, and easy-to-use platform. Even our non-tech-savvy team can manage updates now!”

– Moses Wamalwa Bishop Newlife Fountain Ministries
